

MEMBERSHIP FORM

for participating in the CSOs Network for Open Government Partnership

Every civil society organization (CSO) that wishes to be part of the CSOs Network for Open Government Partnership (OGP) must fill out this form to formally confirm their interest in membership and facilitate the communication and coordination process within the network.

The CSOs Network for Open Government Partnership is being formed on the eve of the preparation of the new (Fifth) National Action Plan, with the aim of more organized action and impact of CSOs on its creation, as well as encouraging and monitoring the implementation of the existing and future action plans.

The main purpose of the network is to coordinate and strengthen the voice of civil society organizations that advocate for the participation, openness and accountability of authorities. The Network will strive to initiate, encourage, support, implement and monitor the OGP process and encourage authorities and other institutions to increase their transparency, accountability and openness to participation.

The role of the network is to mobilize and coordinate civil society advocacy on OGP issues.

The network is informal and open to the participation of civil society organizations operating in different fields and advocating for civic participation in public policy making, transparency and accountability of the authorities. The process of network formation is led by the Initiative Board of 10 CSOs¹, which will operate temporarily until the network structure is established.

For more information on the Network, read the open call to CSOs for joining the Network.

This form is to be submitted electronically to sunchica.kostovska@fosm.mk by 30 December 2019. If you require further information or assistance in completing this form, you can write to the same address or contact us on Sunčica Kostovska-Petrovska's telephone: 02 2477123, a Civil Society Consultant at FOSM.
